ANNEXURE TO THE NOTICE

EXPLANATORY STATEMENT AS REQUIRED UNDER SECTION 102 OF THE COMPANIES ACT, 2013:

ITEM NO. 5:

The existing Articles of Association (AoA) is based on the Companies Act, 1956 and several regulations in the existing AoA contain references to specific sections of the earlier Act and some regulations in the existing AoA are no longer in conformity with the Companies Act, 2013. The Act is now largely in force. On 12th September, 2013 the Ministry of Corporate Affairs ("MCA") had notified 98 sections for implementation and subsequently, on 26th March, 2014 MCA notified most of the remaining sections (barring those provisions which require sanction/ confirmation of the National Company Law Tribunal). However, substantive sections of the Act, which deals with the general working of Companies stand notified. In order to make the AoA of the Company in tandem and to comply with the relevant sections/ provisions under the Act and rules made thereof it is proposed to replace the existing AoA of the Company by a new set of Articles. Accordingly, in lieu of amendments to various articles in the existing AoA, it is considered prudent and desirable to adopt a new set of AoA of the Company, in substitution for, and to the exclusion of, the existing AoA of the Company. Pursuant to Section 14 of the Act the consent of the members of the Company by way of a Special Resolution is required for adoption of a new set of AoA of the Company. Accordingly, this matter has been placed before the Members for approval. The new AoA to be substituted in place of existing AoA are based on Table 'F' of the Act which sets out the model AoA for a Company limited by shares. A copy of the new set of AoA of the Company proposed to be adopted together with the proposed alterations would be available for inspection by the members at the Registered office of the Company during business normal hours on any working day, excluding Sunday, upto and including the date of the Annual General Meeting. None of the Directors, Key Managerial Personnel of the Company / their relatives are in any way concerned or interested, financially or otherwise in the Special Resolution except to the extent of their shareholding in the Company. The Board of Directors of the Company, therefore, recommends passing of the Special Resolution at Item No. 5 of the Notice.

ITEM NO. 6:

The Company's Registered office is situated at Ahmedabad and its Corporate Office is situated at Mumbai from where all business activities are carried on. It is therefore convenient and prudent to keep books of accounts and statutory records at its Corporate Office. As per the provisions of Section 94(1) of the Companies Act, 2013 your Company is permitted to keep Statutory Registers, etc. at the Corporate Office in Mumbai as more than one-tenth of the total number of members entered in the register of members as on 31st July, 2015 are residing in Mumbai. The Board of Directors has passed resolution for the same.

In view of provisions contained in Section 94 of the Companies Act, 2013 it is necessary to pass special resolution and obtain approval of shareholders of the Company. The Company therefore proposes to seek approval for keeping and maintaining statutory records including Register of Members, Security holders and other Statutory registers, certificates, documents etc at corporate office of the Company situated at 77/78 Mittal Chambers, 228, Nariman Point, Mumbai - 400 021 which will be kept open for inspection of members on any working day during business hours.

ECONOMIC SCENARIO & OUTLOOK :

The turnover of the company has decreased by about 4.34% over the previous year. Gelatine sales have increased by 7.29% and whereas Ossein sales have reduced by 33 % during the year.

The performance of the company is adversely affected due to shortage of raw materials leading to steep rise in raw material prices. Increase in manpower, labour costs, freight and forwarding costs have also put pressure on margins and operating profits during the year.

During the year, the company initiated steps for the upgradation of its effluent treatment facility by refurbishing some of the existing equipments as well as modernization of the raw material grading facility. The Completion of both these projects would take place during the current financial year of 2015-16. The above measures being undertaken by the company will allow benefits to accrue over time.

On account of the fall in oil prices and to the extent the Govt. of India has allowed the reduction to be passed on to industrial consumers it has resulted into a reduced cost of energy by 8.65%. This was due to the steps implemented by the Company for changing over the source of its energy needs from Natural Gas to Furnace Oil.

With the above mentioned steps being taken as well as other efforts to find newer markets for the company's products it is likely that the company will be in a position to achieve better results in the future.

ANNEXURE 'A' TO DIRECTORS' REPORT

MANAGEMENT DISCUSSION & ANALYSIS REPORT

1) INDUSTRY STRUCTURE & DEVELOPMENT :

The domestic as well as Global economies have been showing a robust growth in the area of Healthcare as witnessed by the mergers and acquisitions amongst the large pharmaceutical companies. The improvement in this segment is also translating into the life span longevity of the population across the globe. Life expectancy increases in the emerging markets of the world allows the expansion in this sector at a significant pace.

As per the most recent World Bank IBRD IDA data the life expectancy at birth figures for Brazil, China and India has risen from the year 2000 to 2013 from 70 to 74 years, 72 to 75 years and from 62 to 66 years respectively.

This growth is being witnessed in areas of both the more controlled segment of Pharmaceuticals as well as in the lesser controlled area of Nutraceuticals leading to greater consumption of capsules both hard shell as well as soft capsules.

Globally too due to the fading overhang of the diseases such as Bovine Spongiform Encephalopathy (BSE) also known as Mad Cow Disease the consumption in the form of Edible and Food products is on the increase.

Raw material shortages around the world are stifling the sales/growth for bovine animal origin Gelatines. In Asia, India as well as China the world's leading emerging markets struggle for availability of raw materials, whereas elsewhere Southern American countries are also facing similar constraints for want of raw materials.

Europe on the other hand due to the sanctions imposed by Russia on European raw materials continues to see surpluses in pig skin raw materials. Given the existence of these diversities at the same time creates complexities in the consumer markets around the world which may last until the end of the financial period 2015-16.

Domestically, the challenges persist on account of the sentiment towards the banning of cow slaughter in two states namely Maharashtra and Haryana, which does have an effect on the overall availability of raw material for the Gelatine industry. Your Company with the assistance of the Gelatine Manufacturers Association is making efforts for the opening up of the restrictions currently in place for the import of bones.

DCP sales have remained sluggish during the year on account of lower consumption of poultry primarily due to increased pressure on disposable incomes of people owing to higher inflation. Sales of DCP were lower by almost 7.22%, although the volumes were higher by 6.88% on a year-on-year comparison.

On the environment front Vapi still maintains its position as a Critically Polluted Area (CPA) and hence there has been no movement on the possibilities for increasing the production capacity of the Company. Efforts are currently on by the Vapi Industries Association for having Vapi brought out of the CPA list.

With the above mentioned steps being taken as well as other efforts to find newer markets for the company's products it is likely that the company will be in a position to achieve better results in the future.

2) OPPORTUNITIES AND THREATS :

With the expansion of the world economies and the increase in the per capita incomes in the emerging markets where the population in numbers is the largest and based upon the consequent higher disposable incomes, there remains a larger opportunity for growth in the areas of healthcare and edible applications.

Shortage of raw materials especially bovine bone and skins remain a threat for the stable growth of this industry. Threats also remain from the non tariff barriers to trade which still exist since the preliminary incidence of BSE in Europe. As well as newer barriers which are put in place by countries for the protection of their home markets.

Waste water disposal issues continue to becoming more challenging especially with the depleting fresh water sources in different geographies.

3) SEGMENT WISE AND PRODUCT WISE PERFORMANCE :

The raw material namely crushed bones availability has proved to be a major concern over the past year and the outlook is likely to remain so during the next year as well. Due to the nonavailability, the performance has taken a setback. Coupled with the shortage of crushed bones the quality has suffered also during the year thereby affecting the yield of the finished products as well as incurring higher costs towards effluent treatment.

INDIA GELATINE & CHEMICALS LTD.

Gelatine sales have increased both in terms of value and volume terms purely based on the strong marketing efforts undertaken by the Company. Although due to the shortage of raw materials it is unlikely the company would be able to achieve a similar performance for the coming year.

Ossein sales have taken a major setback during the year primarily on account of increased raw material costs and availability, the situation going forward also does not look very positive.

DCP market has been sluggish for the past two years now and is showing some signs of improvement given the increase in the prices of other animal proteins such as buffalo, lamb meat becoming prohibitively more expensive for the mass meat consuming population.

4) OUTLOOK :

Sales for both Gelatine and Di-Calcium Phosphate may remain stable barring any drastic change in export policies for the company's product or any further unprecedented rise in raw material costs. Ossein sales is likely to be on downward trend.

5) RISKS AND CONCERNS :

As mentioned above the main raw material crushed bones is a matter of serious concern for the industry and hence the Company is making efforts on various fronts to cope with the same by means of identifying possibilities for the import of the crushed bones.

Due to other raw materials such as pig skin being available in abundance in the European Union the prices of Gelatine are likely to be under pressure which may result into lower realisations for the company's products in the short term.

6) INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY :

The Company has proper and adequate internal control systems to ensure that all assets are safeguarded and protected against loss from unauthorized use or disposition and those transactions are authorized, recorded and reported correctly.

The internal control is supplemented by an extensive programme of internal audit, review by management and documented policies, guidelines and procedures. The internal control is designed to ensure that the financial and other records are reliable for preparing financial statements and other data, and for maintaining accountability of assets. The management is committed to a regular review of this aspect.

7) DISCUSSION OF FINANCIAL PERFORMANCE WITH RESPECT TO PERATIONAL PERFORMANCE :

Turnover decreased by 4.34% to ₹ 11,233.51 Lacs during the year ended 31st March, 2015 as compared to ₹ 11,743.14 Lacs during the previous year.

EBIDTA (Earnings before Interest, Depreciation, Taxes and Extra Ordinary Item) for the Current year is ₹ 1,233.03 Lacs as against ₹ 1,786.14 Lacs in the previous year.

The Borad of Directors recommend dividend @ 15% as against @ 18% in the previous year.

8) MATERIAL DEVELOPMENTS IN HUMAN RESOURCES/ INDUSTRIAL RELATIONS FRONT, INCLUDING NUMBER OF PEOPLE EMPLOYED :

The Company recognizes the importance and contribution of its Human Resources for its growth and development and is committed to the development of its people. The Company has implemented various methods and practices for Human Resources Development.

The Company has 93 Employees on its roll as on 31st March, 2015.

CAUTIONARY STATEMENTS :

Actual results may differ from such estimates, projections, etc., whether expressed or implied. Factors which would make a significant difference to the Company's operations include achievement of better quality and good market price in domestic and overseas market, changes in Government regulations and tax laws, economic conditions affecting demand/ supplies and other environmental factors over which the Company does not have any control.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.
