ECONOMIC SCENARIO & OUTLOOK:

The turnover of the company has decreased by about 18.04% over the previous year. Gelatine sales have decreased by 22.15% and whereas Casein sales have reduced by 79.56% during the year.

The year started with a very bearish outlook given the underlying conditions of the raw material availability which were similar conditions at the end of previous year too. Although, the company had taken a cautious approach in order to deal with the reduced raw material availability of bovine bones by reducing production, it was not in a position to make sufficient impact in the market due to the existing demand by the other Gelatine manufacturers in the country who were also having to deal with reduced availability of the bones.

During the year the Government of India permitted the import of bones from overseas subject to the obtaining of Sanitary Import Permit. The company has applied for this permit and is likely to be received during the year 2017-2018.

The profitability of the Company was severely under pressure on account of high raw material prices and reduced production. The import of bones is likely to result in a slightly better situation in the coming year.

The exchange rate between the US Dollar and the Indian rupee was also not favourable for exports and since the main product of the Company Gelatine is primarily exported further impacted the profitability.

INDIA GELATINE & CHEMICALS LTD.

G.I.D.C. Vapi, where the plant of the Company is located had been classified as a Critically Polluted Area (CPA) and with the efforts of the Vapi Industries Association it was possible to have the CPA classification lifted during the year. This now allows expansion activities to be carried out by the Industries located in the G.I.D.C.

Besides the certifications / accreditations which the Company already possesses the additional accreditation which was received by the Company during the year 2016-2017 was from the Halal MUI of Indonesia, by virtue of which the Company now becomes eligible for exports of its Gelatine to this new market.

In spite of all the challenges confronting the Companies performance, it has managed to add new customers on to its existing list of customers both domestically and globally and which should result in higher revenues in the coming years.

**ANNEXURE 'A' TO DIRECTORS' REPORT
MANAGEMENT DISCUSSION & ANALYSIS REPORT**

1) INDUSTRY STRUCTURE & DEVELOPMENT :

Pursuant to the initiation of economic reforms in India and the integration of our country into the Global economy, Indian businesses including the Gelatine industry were exposed to international competition. These challenges, devoid of geographical borders, made the Indian Gelatine industry susceptible to weather changes in the Global market place.

The Gelatine industry and markets have been volatile for the last year and a half, although the change has been even greater on the domestic front. The growth in the Global arena as well as the domestic one, continues to increase with certain structural changes, primarily in relation to the availability of raw material in some geographies and then coupled with the spurt in availability of raw materials for the Gelatine industry in other geographies.

As a recent example, a large Bovine Hide production centre namely South America faced an extreme shortage of Bovine Hide materials and this subsequently led to a drop in the availability of Bovine hides and consequently the availability of Bovine Hide Gelatine.

Due to the reversal in the availability of Bovine hides in South America namely Brazil there has been a surplus of Bovine Hide gelatine, around the world which has also led to a tendency of declining Gelatine prices.

These peculiarities are likely to remain as the policies and governments around the world are transient and they tend to amend their laws and policies depending on the current trends at that point of time. This would, hence, lead to cyclical trends for industries such as the Gelatine raw material industries and affect its performance.

At this moment, due to the certain decisions taken by the Indian Government on the restriction of slaughter of Bovine animals, there remains a shortage of the principal raw material; crushed bones and this would naturally have a negative impact on the raw material costs.

To tide over the same, the Gelatine industry under the banner of the association OGMA had taken up the issue for the import of bones into India and it was given an extremely considerate hearing by the Government which has led to the clearance for the import of bones into India. This should result in an easing of raw material availability issues for the industry and our company.

2) OPPORTUNITIES AND THREATS:

Opportunities:

The raw material availability for any industry is a very crucial aspect and due to the availability of crushed bone in other Geographies in the world and the allowance for the import of bones being cleared by the Indian Government it should result in a favourable situation for the Indian Gelatine industry.

Threats:

Since the first half of the last Financial Year, there have been indications from the Indian Government for the replacement of Gelatine capsules with cellulose (vegetarian) capsules. Talks have been going between the Indian Government and Gelatine industry representatives and it is anticipated that the replacement for the Gelatine capsules may not be implemented and that a solution whereby both Gelatine and cellulose based capsules would be available in the market.

The decision from the Expert Committee instituted by the Government of India to study the issue and provide a suitable recommendation to the Government is still awaited.

3) SEGMENT WISE AND PRODUCT WISE PERFORMANCE:

Osselin sales for our company remain under pressure as the availability of different raw materials such as cattle hide, pigskin for gelatine production around the world have been improving, therefore osselin, which was being used for Gelatine production is not competitive amongst the alternatives available and this has led to reduction of demand for osselin.

DGP sales in the domestic market as the Indian poultry industry remains strong and it is likely to remain steady for the coming year.

INDIA GELATINE & CHEMICALS LTD.

Gelatine sales in the domestic area have also been steady for the past year however, the Company's exposure in the domestic area is limited.

The export markets were somewhat sluggish too during the year on account of greater availability of Bovine hide Gelatine, due to increased availability of Bovine hides in Brazil. This situation is unlikely to last for a long time considering that the other raw material for Gelatine namely pigskin used by the European and US Gelatine makers is decreasing in availability. These fluctuations affect the global trade in Gelatine and would certainly lead to increased volatility in the near future.

4) OUTLOOK:

Given the above information and the challenges in the availability of some raw materials in different areas of the world, the situation remains advantageous for the Indian Gelatine Industry based on the fact that India is a cost effective supply source of Gelatine for the world, which is certainly a positive outlook for the future.

5) RISKS AND CONCERNS:

Issues in relation with the slaughter of bovine animals as well as the pending decision with the Government of India for the replacement of Gelatine capsules with Cellulose based capsules could prove to be a major threat if the recommendation by the expert committee is unfavorable for the Gelatine Industry.

6) INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY:

The Company has proper and adequate internal control systems to ensure that all assets are safeguarded and protected against loss from unauthorized use or disposition and those transactions are authorized, recorded and reported correctly.

The internal control is supplemented by an extensive programme of internal audit, review by management and documented policies, guidelines and procedures. The internal control is designed to ensure that the financial and other records are reliable for preparing financial statements and other data and for maintaining accountability of assets. The management is committed to a regular review of this aspect.

7) DISCUSSION OF FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE:

We have audited the Internal financial controls over financial reporting of India Gelatine & Chemicals Ltd ("the Company") as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining Internal financial controls based on the Internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate Internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's Internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of Internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate Internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the Internal financial controls systems over financial reporting and their operating effectiveness. Our audit of Internal financial controls over financial reporting included obtaining an understanding of Internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of Internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's Internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting.

A company's Internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purpose in accordance with generally accepted accounting principles. A company's Internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company, (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company, and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.
